Subject: Greek Residence Program

Dear Mr. Aly El Darkoury,

Thank you very much for your letter dated Oct. 5th.

As you know, the Greek Government in accordance with the law 4146/2013, grants Residence Permit in Greece for those who acquire real estate or doing a strategic investment in Greece. This measure concerns citizens of countries which are not Members of the European Union.

As regards the acquisition of real estate property, the minimum value of the property must be at least 250.000 euro.

Regarding the strategic investment, a such investment is considered to be strategic when a relevant Decision of the interministerial Committee of Strategic Investments has been issued (Law 3894/2010- Gov't Gazette A' 204).

To this end, our Office, and me personally, will be at your disposal for promoting the above Residence Permit Project in Greece and for any additional information or clarification.

Sincerely yours,

Michail Vrettakis
Head of the Office
